Experience

EWD Steward · MTS Australia Dec 2024 — Nov 2025

- Supported station staff with daily operations, including opening and closing stations and resolving issues found on site
- Helped customers with travel, and calmly managed intoxicated, injured or distressed customers and large crowds
- Communicated clearly over handheld radios and moved and set up hazard control equipment
- Reported incidents promptly and stayed composed in high-pressure situations

Online Sales Supervisor · Coles Online Mar 2023 — Oct 2024

- Managed and trained a team of online shopping assistants to meet performance and customer service standards
- Coordinated picking, packing and delivery so orders were filled on time and accurately
- Kept the team working safely and in line with Coles WHS procedures

Sales Cashier · Coles Jun 2021 — Oct 2022

- Served customers quickly and accurately at the checkout
- Fixed register and technical problems on the spot and resolved difficult customer situations

Selected Projects

LAN Configuration & Traffic Analysis Networking

- Configured routers and switches with Tera Term in a team lab, tested connectivity and captured packets in Wireshark

Networking Labs Networking

- Configured switches and routers, IP addressing and subnetting, and troubleshot network connectivity

Bookstore Ordering System Programming

- Built a Java ordering program with arrays, input validation and tiered discounts, split into modular methods

Strategy Tester Data analysis

- Recorded market data and backtested trading strategies to find which were profitable

Portfolio Website Web design

- Designed and built a responsive portfolio site with HTML, CSS and Bootstrap, including a carousel, project lightbox and archive

Skills
